

Dear _____,

I am very concerned about the impact of the Jordanville Wind Power Project on Otsego Lake, the Walden Pond of New York State. Its 19-century landscapes, which you and so many others have helped conserve, are in peril from 21st-century industrial intrusions. The Jordanville project, as well as others proposed for our region, will have a significant impact on properties listed on the State and National Registers of Historic Places, including the Glimmerglass and Lindsay Patent historic districts and state-designated scenic areas like the Route 20 Scenic Byway. These are irreplaceable resources that we value and wish to protect. Please don't let this happen!

Sincerely yours,
